2017 List of Reportable Diseases in Tennessee

For Healthcare Providers

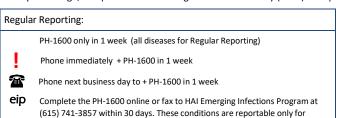

The diseases, events, and conditions reportable to Tennessee Department of Health (TDH) by healthcare providers are listed below for 2017. Laboratories in healthcare facilities should refer to Page 2 of this document. The reporting form (PH-1600) and associated documentation may be faxed directly to the local or regional health office (see http://tn.gov/health/topic/

<u>localdepartments</u>) or the Division of Communicable and Environmental Diseases and Emergency Preparedness (CEDEP) at (615) 741-3857. The PH-1600 also is available for completion online at https://redcap.health.tn.gov/redcap/surveys/?s=XTJTN4MD3D. More information about reporting, is available at the Reportable Diseases website at https://apps.health.tn.gov/ReportableDiseases. For questions, contact CEDEP at (615) 741-7247 or (800) 404-3006.

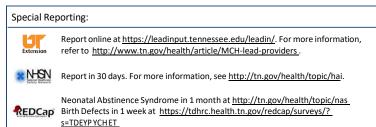

Disease Outbreaks (e.g., foodborne, Hansen's Disease (Leprosy) O Fever 🕿 Healthcare Associated Infections: **N+SN healthcare-associated, waterborne)! Rabies: Animal, Human! Catheter-Associated Urinary Tract Infections **Anaplasmosis** Ricin Poisoning ! Central Line Associated Bloodstream Infections Anthrax ! Rubella 🖀 Clostridium difficile **Babesiosis** St. Louis Encephalitis Virus Infection **Dialysis Events** Birth Defects REDCap Salmonellosis: Typhoid Fever 🖀 Healthcare Personnel Influenza Vaccination Salmonellosis: All other species Botulism: Foodborne !, Wound ! Methicillin-Resistant Staphylococcus aureus Shiga toxin-producing Escherichia coli Botulism: Infant Surgical Site Infections **Shigellosis** Brucellosis 22 Ventilator Associated Events California/LaCrosse Serogroup Virus Infection Smallpox Hemolytic Uremic Syndrome Campylobacteriosis Spotted Fever Rickettsiosis Hepatitis, Viral-Type A 🕿 Staphylococcus Enterotoxin B Pulmonary Candida auris 🕿 Hepatitis, Viral-Type B: Acute Carbapenem-Resistant Enterobacteriaceae: Poisoning ! Hepatitis, Viral- Type B: Perinatal (age ≤24 Enterobacter species, Escherichia coli, Staphylococcus aureus: Methicillin-Resistant eip months), Pregnant Female (each pregnancy) Klebsiella species Hepatitis, Viral-Type C: Acute **Invasive Disease** Carbon Monoxide Poisoning Human Immunodeficiency Virus/Acquired Staphylococcus aureus: Vancomycin Non-Chagas Disease Immunodeficiency Syndrome Sensitive (All Forms) Chikungunya 222 Influenza-Associated Deaths: Age <18 Years, Streptococcus pneumoniae Invasive Disease Chlamydia Pregnancy-Associated 22 Syphilis: Congenital Cholera Syphilis: Other Influenza A: Novel Clostridium difficile Infection eip Lead Levels 🛄 **Tetanus** Colistin-Resistant (Plasmid-Mediated) Gram Toxic Shock Syndrome: Staphylococcal, Legionellosis Negative Bacteria 🖀 Streptococcal Listeriosis Congenital Rubella Syndrome 22 Tuberculosis, infection ("latent")* Lyme Disease Cryptosporidiosis Tuberculosis, suspected or confirmed active Malaria Cyclosporiasis disease 🖀 Measles ! Dengue Tularemia 🖀 Meningitis: Other Bacterial Diphtheria 🖀 Vancomycin-Resistant Enterococci Invasive Meningococcal Disease (Neisseria meningitidis) Ehrlichiosis (including E. chaffeensis and Disease Middle East Respiratory Syndrome! E. ewingii) Varicella Deaths Equine Encephalitis Viruses: Eastern 3, Mumps 22 Vihriosis Neonatal Abstinence Syndrome REDCap Venezuelan 2, Western Viral Hemorrhagic Fever! Nontuberculous Mycobacteria Infection West Nile Virus Infection: Encephalitis, Fever Group A Streptococcal Invasive (extra-pulmonary only) Yellow Fever Disease (Streptococcus pyogenes) Pertussis 🖀 Yersiniosis Group B Streptococcal Invasive Plague 22 Zika Virus Disease/Infection 22 Disease (Streptococcus agalactiae) Poliomyelitis 222

* Healthcare providers should only report "Tuberculosis, infection" (formerly, "latent" TBI) for a positive tuberculin skin test (TST) for any child or adolescent < 18 years of age, or a positive interferon-gamma release assay (IGRA) for a patient of any age. Refer to the PH-1600 for additional directions on how to report.

Psittacosis

residents of Davidson County. For questions, email HAI.Health@tn.gov.

Haemophilus influenzae Invasive Disease
